

Job title: Production Supervisor

Department: Cable Assembly

Reports to: Cable Assembly Manager

Job summary

Due to our continued growth and increased demand, we are seeking a production supervisor. This is an excellent opportunity for an enthusiastic, proactive and driven person who has a keen interest in manufacturing and is looking to build a career with a reputable and well-established manufacturing company. You will be working in an everchanging, hands on and fast paced manufacturing environment and will be a physically demanding role, with the ability to multitask and have strong attention to detail.

Key responsibilities

- To lead, develop and motivate a hardworking well-established team, providing support and guidance with daily production issues whilst monitoring and reporting on set targets and KPI's.
 - You will take responsibility for the coordination of resources and the provision of necessary materials to ensure the smooth running of the department and timely delivery of production schedules.
 - Working collaboratively with other core areas of the business, you will work to ensure full compliance with Quality and Health and Safety procedures across the shopfloor ensuring statutory legislation, meeting company health and safety requirements, and completing accurate and timely reporting.
 - If you are a highly driven leader looking to build your career in an everchanging, hands on and fast paced manufacturing environment, then we want to hear from you.
 - Collate, monitor and analyse KPI and operational data and adjust to achieve targets.
 - Be willing to get stuck in when needed and show a hands-on approach to the supervisory role.
 - Maintain open and effective communication with team members, management, and other departments.
-

Preferred skills and experience

- Proven supervisory experience within and manufacturing and production environment.
 - Experience in cable manufacturing is desirable, but not essential.
 - Good knowledge in manufacturing processes and quality control with experience working to ISO9001.
 - Familiarity with safety and environmental regulations.
 - Strong problem-solving skills with a proactive approach to challenges.
 - Ability to lead by example and motivate a team to achieve targets.
 - Good communication and interpersonal skills.
 - A team player who is willing to be hands on when required.
 - Highly organised, flexible and adaptable.
 - A keen willingness to learn and develop.
-

Benefits

- 25 days annual leave
- Private Medical Insurance
- Medical Cash Plan
- Pension Scheme
- Employee Discounts
- Bonus scheme
- Free parking.
- Free uniform.
- Salary dependant on experience.
- Overtime required at times.

Working Hours

Monday to Friday 7am-3.30pm.

About Fibron

Fibron BX is a major designer, manufacturer and global provider of cables and umbilical's for use in some of the planets most challenging and harsh environments.

Established in 1986, the company has built considerable in-house design expertise and developed manufacturing facilities capable of producing a broad range of products for some very diverse applications.

At Fibron our expertise crosses several different industry sectors, and we have a particular strength in the design and development of prototypes, supplying products to major operators and contractors globally and places great emphasis on developing strong and long-term relationships with both our customer and suppliers.

Offering the highest levels of customer service is deeply ingrained into the culture of the business. We have an excellent track record of meeting and exceeding our customers' expectations, and we have a very high level of customer satisfaction, which drives loyalty and repeat business.

To apply
